B.Tech, Computer Science and Engineering - Artificial Intelligence
and Machine Learning

Address : 12-4-33/4, prakash nagar, Venkatadri
apartment, Narasaraopet

Education

SRM IST-Kattankulathur

B.Tech · Computer Science and Engineering - Artificial Intelligence and Machine
Learning

2027

CGPA - 9.66/10

VIT Junior College

Class XII - State · mpc · Narasaraopet

2023

Percentage - 97%

OXFORD HIGH SCHOOL

Class X - State · SSC · Narasaraopet

2021

Percentage - 100%

Projects

Crop Disease Detection Using Deep Learning and Ensemble Learning

· Python, TensorFlow, Keras, Scikit-learn, NumPy, Pandas, OpenCV, Flask, Matplotlib

Dec 2025 - Present

Machine Learning

Built an AI-based crop disease detection system using CNN, Random Forest, and KNN ensemble learning. The model achieves high accuracy on the PlantVillage dataset and provides real-time disease prediction with treatment recommendations via a web interface.

Waste Food Management System

· PHP, MySQL, HTML, CSS, JavaScript, XAMPP

Feb 2025 - Apr 2025

Database Management

The Waste Food Management System is a web-based platform designed to reduce food wastage by enabling donation and redistribution of surplus food. It supports role-based access for users, administrators, and delivery agents to manage donations and deliveries efficiently. The system is developed using PHP and MySQL with a focus on practical database and web application design.

AI-Powered face Detection and Recognition System

· Python, OpenCV, CNN, NumPy, Deep Learning

Computer Vision / Deep Learning

This project implements an AI-based face detection and recognition system using Convolutional Neural Networks (CNN). It accurately detects and identifies human
